

Don't worry... be happy!

Environmental Policy

The **U-Power Group** is committed to working to contain and reduce the environmental impact of its activities, with the aim of providing the customer and the market with products whose quality is also synonymous with respect and responsibility towards the environment. The top management of the Group therefore place respect for the environment and the prevention of pollution as founding values of the **U-Power** business model. For this reason, the Group has adopted an Environmental Management System for its production plants in Tunisia in compliance with the **UNI EN ISO 14001: 2015 standard**.

In order to pursue these objectives, the Group undertakes to:

- satisfy the requirements deriving from applicable legislation, internal regulations and any other commitment signed by the Group;
- constantly improve their environmental performance as well as the effectiveness of the environmental management system;
- reduce environmental impacts - in particular, with reference to used materials, waste management, energy consumption and related greenhouse gas emissions - by implementing best practices in the development and production phases of products and the best technologies available;
- constantly monitor environmental risks and performance, communicating them in a transparent and timely way to its stakeholders through sustainability reporting;
- define programs to raise awareness and train staff on environmental matters at all levels, which also include the dissemination of environmental culture;
- identify and disseminate specific improvement objectives and related implementation programs within the Group.

This Environmental Policy applies to **U-Power Group S.p.A.** and to all fully consolidated companies and is made available on the Group's website for communication to interested parties.

U-Power Group undertakes to implement, communicate and disseminate the Environmental Policy to all its employees and people who work on behalf of the Group, as well as to periodically review its contents to ascertain its continued suitability. Any report or request for information can be sent to the following email address: **sustainability@u-power.it**.

Paruzzaro, 11/05/2022
